

BTL certification -

Meitav-tec's CTU (HVAC BMS controllers) with BACnet protocol are now BTL certified and listed.

"This product has been tested at a qualified BACnet Testing Laboratory and found to comply with all the necessary interoperability requirements in place"

[Read more on BACnet International web site >>](#)

The CTU series are a Configurable Controllers designed to control various HVAC applications such as Fan-Coil, D/X Air Conditions, VAV, AHU, Multi-Zone, Chilled and Heated Beams and more. The CTU operates and control Digital & Analog Inputs along with Digital & Analog Output types such as On/Off, proportional 0-10V, 3-wire and thermal actuator. A variety of Wall panels or Remote control is available together with the CTU for interface and operation by the end-users. The CTU can be configured by the installer without the need of a PC and software tool, using a set of on-board dip-switches. The controller is designed for field installation in a panel or enclosure or for mounting by original equipment manufacturers (OEMs) on DIN-rail or directly on a surface.

CTU application types:

CTU Fan-Coil controllers	Outputs operation
CTU2500-FC-SUPER	On/Off
CTU2500-P-FC-SUPER	0-10VDC proportional
CTU2500-PM2-FC-SUPER	3 wire (Open/Common/Close) 24VAC
CTU2500-TA2-FC-SUPER	Thermal Actuator (230VAC)
CTU Air Condition controller	
CTU2500-AC-SUPER	Compressor & Heat Pump
CTU2500-WSHP (Water Source)	Compressor & Heat Pump
CTU I/O card	
CTU2601	Input/Output Card

Meitav-tec exhibited in AHR show in Las-Vegas, NV USA during Jan. 31 - Feb. 2, 2011. The show was a great success for Meitav-tec, with a lot of traffic in our booth showing high interest in our products lines, and leads from many visitors coming into our booth.

Thank you all that visited our booth.

TLC-24

The TLC (Temperature Limit Controller), is a simple, yet highly efficient device which offers substantial energy saving of Air Conditioning by limiting room temperature for Cool & Heat.

Now available also in 24VAC with Fahrenheit or Celsius scale.

The 24VAC is a perfect solution to any existing American A/C units with a 24VAC control board built-in.
